

Rachel Renard, SCA class of 2009, has been accepted into the Georgia Health Sciences University in Augusta, GA. She will enter their 2-year program in the Fall to obtain a degree in Occupational Therapy. Rachel has worked hard at Anderson University the past three years to take the right classes and obtain suitable references to help her reach her goal of being accepted into Occupational Therapy School. Rachel has volunteered in Occupational Therapy clinics to gain experience and knowledge, and recently passed a series of interviews to make her acceptance final. The Lord has given her patience while waiting for His plan to unfold. SCA is proud of Rachel's hard work and success and wishes her the best as she continues her education.
