

SCA Gives Back

Spartanburg Christian Academy students, parents, and teachers have always been so generous with their time and resources. Two service projects done recently at SCA have proven that.

During Homecoming Week in January the SCA family raised money to purchase Military BibleSticks. A BibleStick is a digital audio player that is pre-loaded with a recording of the New Testament. They are distributed to our nation's troops during deployment. SCA raised \$1800 and were able to purchase 72 BibleSticks!

The Cultural Studies classes participated in a service project here on campus. Mrs. Nusz involved kindergarten through 4th grade to serve our construction workers at our new youth facility. The 5K and 1st grade made cards for each worker in English and in Spanish, and the 3rd grade decorated lunch bags. The 4th grade filled the bags with an assortment of snacks and apple juice. Also included in the bag was a Bible verse in English and Spanish. These bags were available for the construction workers to get during their break. The second grade had a time of prayer specifically for the construction workers that same day.

These classes learned they can be missionaries anywhere, especially at school!
